5.0 PROCEDURE

The Oyster Creek Emergency Preparedness Program consists of the following elements:

5.1 Development, implementation and maintenance of the Emergency Plan

Implementing Document - This document, as defined in Section 3, implements the Oyster Creek Emergency Preparedness Program.

5.2 Emergency Preparedness Training Program - This program is governed by Reference 6.1 and conducted in accordance with the Oyster Creek Training Department Procedures.**5.3** Emergency Drills and Exercises

5.3.1 An exercise is an evaluated demonstration of major portions of emergency response capabilities. An exercise tests the integrated capability of the emergency response organization to identify weaknesses that could affect the response to an actual emergency. Exercises usually involve a large radiological release affecting the off-site populace and usually involve the full or partial participation of federal, state, and local agencies. (ref: INPO 88-019)

5.3.2 A drill is an evolution conducted to develop and maintain key emergency response skills. Drills are usually narrower in scope than exercises and can be used to train a specific area of response such as fire response, medical response, or interagency communications. Drills can also be used to train for integrated response of the emergency organization. Drills should be used to practice and promote a high state of readiness and teamwork within and between on-site facilities and disciplines. Drills can be used to correct deficiencies identified in exercises. (ref: INPO 88-019)

Title

Revision No.

5.3.3 Periodic drills and exercises will be conducted in order to assess the state of emergency preparedness. The prime objective of this form of training is to verify the emergency preparedness of all participating personnel, organizations, and agencies. Each drill or exercise will be conducted to: (1) ensure that the participants are familiar with their respective duties and responsibilities, (2) verify the adequacy of the Emergency Plan and the methods used in the Emergency Plan Implementing Documents, (3) test communications networks and systems, (4) check the availability of emergency supplies and equipment, and (5) verify the operability of emergency equipment. In addition, repair and damage control shall be included in one major drill/exercise on an annual basis. (ref: OCNGS E-Plan)

5.3.3.1 Medical Emergency Drill

Medical Drill shall be conducted annually. The drill will involve the participation of local medical support personnel and organizations (e. g., physician, ambulance service, hospital), and will involve simulated (injured) contaminated personnel.

5.3.3.2 Fire Emergency Drill

Fire drills shall be conducted in accordance with the site Fire Protection Plan.

5.3.3.3 Radiological Monitoring Drill

Radiological Drill shall be conducted annually. The drill shall include collection and analysis of all appropriate sample media for both onsite and offsite locations.

Title

Oyster Creek Emergency Preparedness Program

Revision No.

15

5.3.3.4 Radiological Controls Drill

At least one drill shall be conducted semi-annually. The drill will involve response to, and analysis of, simulated elevated airborne and liquid samples and direct radiation measurements. The drill shall include analysis of inplant liquid samples with simulated elevated activity levels.

5.3.3.5 Hazardous Material Spill Drill

Hazardous Material Spill Drills shall be conducted as required by the OCGS Environmental Control Plan.

5.3.3.6 Biennial Exercises

- a. The OCGS Emergency Plan shall be tested biennially to include a scenario with a Site Area or General Emergency. State and local government emergency plans will be included with full or partial participation by state and local governments within the Plume Exposure Pathway EPZ as required by federal regulations.
- b. Conduct of the exercise shall include mobilization of onsite and offsite emergency response personnel and resources in order to verify their capability to respond to an emergency. Communications with State and County agencies will be included. The scenario will be varied from year to year such that all major elements of these plans and preparedness organizations are tested within a six year period. Once within each six year period an exercise will be started in accordance with NRC and FEMA objectives for off-normal hours.

Title

Revision No.

15

- 5.3.4 "Hands-On/OJT" Drills will be conducted when it is determined additional training or experience will enhance an individual, selected group, facility staff or the ERO's ability to respond to emergency conditions. This session may take the form of a walk-through or a table-top discussion of an evolution/operation. This type of drill is distinct from those described in Section 5.3.3 in that the focus is limited and will generally not include an integrated response.
- 5.3.5 Actual Emergency Plan Activations may be credited in place of selected drills if the Emergency Preparedness Manager deems it appropriate. Generally an Alert or higher level emergency may be substituted for a Drill. Such events may also replace an Exercise with NRC approval.
- 5.3.6 Drill Controllers and Evaluators will be selected from the Plant and supporting divisions based on their specialized expertise. Selection will be based on Company Organizational Position and/or Emergency Response Organization qualifications.
- 5.3.7 Drill attendance may be conducted by the facility drill controller/evaluators. Attendance sheets should be signed by the participants for drill credit. Attendance sheets should be returned to the Emergency Preparedness Section for documentation.
- 5.3.8 Personnel may be exempted from drill participation by submitting a copy of a completed Exhibit 5. This should be submitted at least twenty-four (24) hours prior to the scheduled drill date. Should a member of the Team/Priority participating in the Drill require exemption, the Director, Manager, or Supervisor requesting the exemption shall make all necessary arrangements for coverage of that position during the drill. The Drill Exemption List must be approved by the Plant Manager or his designee. Completed copies shall be sent to Shift Security Supervisor's Office - Main Gate and Emergency Preparedness Office.

5.3.10 All drills and exercises will be documented using Exhibit 1. Any items which do not pertain to a particular exercise or drill should be noted "N/A".

5.4 Emergency Preparedness Surveillance Program - Included in the Oyster Creek Emergency Preparedness Procedure Manual as OEP-SUR-1310 series.

5.5 Emergency Response Facilities and Equipment Readiness - These facilities and associated equipment will be maintained in accordance with OEP-ADM-1319.02, Emergency Response Facilities and Equipment Maintenance.

- Shift Security Supervisor's Office
- Emergency Operations Facility
- Emergency Control Center
- Technical Support Center

5.6.2.3 The Drills/Exercise Schedule will be published and distributed each calendar year.

5.6.3 Duty Roster/Schedule Changes

5.6.3.1 An exchange of duty to the IREO or ESO Duty Schedule will be accomplished by the duty assignee submitting a notice via Lotus Notes EP Duty Roster Exchange to the Emergency Preparedness Manager or designee with a copy to the Site Security Manager in advance of the change.
