SUBJECT: PROPOSED LICENSE CONDITIONS IN SUPPORT OF STAFF REVIEW OF  
THE DECOMMISSIONING PLAN OF JANUARY 14, 2003, AS  
SUPPLEMENTED ON MAY 8 AND JULY 24

Dear Mr. Tessitore:

The staff has reviewed Fansteel's decommissioning plan of January 2003, as supplemented in May and July and concluded that not all the information necessary to reach a conclusion that the plan is acceptable has been submitted. Therefore, the staff is proposing certain license conditions to resolve this issue.

Fansteel is not obliged to accept any of the proposed conditions. If Fansteel elects not to accept some of the LCs, NRC will issue RAIs to address these areas and the processing of the amendment request will proceed when substantive technical responses to all such RAIs have been received.

Enclosed are copies of the proposed license conditions.

Sincerely,
