At about 11:00 am today, I picked up the Safety Hotline, and was told by the caller that s/he wanted to talk to Marc Dapas. I stated that Mr. Dapas was a Division director for our materials division, and asked who was calling. The CI confirmed his/her identity (the CI for RIII-2001-A-0174). I asked the CI if I could assist him/her. The CI stated that s/he wanted to talk to the person that keeps signing the letters closing his/her concerns, and that the NRC continues not to substantiate the CI's concerns. The CI said the letter was signed by Mr. Dapas and s/he only wanted to talk to him; not me nor Mr. Heller.

I said OK... provided the CI with the RIII 800 number (800-522-3025) and Mr. Dapas' extension. The CI said fine and that s/he would call Mr. Dapas direct.

I informed B. Clayton and J. Heller of the call. They advised me to take the file to Mr. Dapas and tell him to expect the call from the CI. I was able to give Mr. Dapas about a 1 minute synopsis of what the CI was further concerned about... and then the CI called his number.
