TMI-2, 11:00 A.M., THURSDAY, APRIL 16, 1987,  
COMMISSIONERS' CONFERENCE ROOM, D.C. OFFICE  
(OPEN TO PUBLIC ATTENDANCE)

The Commission\* met with the Advisory Panel for the Decontamination of TMI-2 to receive local community input on GPU's three disposal alternatives for removal of the accident-generated water from TMI-2. The Panel was represented by:

- Joel Roth, Vice Chairman
- Joseph J. DiNunno
- Thomas Gerusky
- John Leitzelschaub
- Elizabeth Marshall
- Kenneth L. Miller
- Frederick S. Rice
- Gordon Robinson
- Thomas Smithgall
- Neil Wald

The Commission directed the staff to determine if any additional water disposal methods could be identified and evaluated in the final environmental impact statement on accident-generated water disposal (NUREG-0683, Supplement 2). In addition, the staff should identify a clearly preferable alternative if it is evident that one exists. Otherwise, the staff should comment on the acceptability, including the risk/benefit considerations, of GPU's evaporation proposal.

The Commission also requested the Advisory Panel to recommend the time frame needed for a Commission decision on the disposal of the accident-generated water at TMI-2 taking into consideration the public concern and understanding of the various options.
