Subject: **Application for Amendment of USNRC License 06-00217-06**

Reference: (A) Letter, R.R. Bellamy (NRC) to J.F. Conant (ABB), dated July 23, 2003

Dear Mr. Ragland:

Reference A voided the ABB Prospects Inc. (ABB) application for license amendment, specifically the CE Windsor Site Decommissioning Plan (DP), but without prejudice to resubmission containing new dose modeling information. In response, ABB hereby requests amendment of USNRC License No. 06-00217-06 to incorporate the CE Windsor Site DP and Derived Concentration Guideline Levels (DCGLs).

Change pages to the currently approved License Application are provided in Enclosure I. Please re-initiate review of the CE Windsor Site DP that was submitted to the NRC by letter dated April 4, 2003; revision pages to that DP submittal are provided in Enclosure II. Enclosure III provides a submittal, in its entirety, of the Derivation of Site-Specific Soil DCGLs report that incorporates changes suggested by the NRC Staff and the Connecticut Department of Environmental Protection Division of Radiation.

If there are any questions or comments regarding this submittal, please do not hesitate to call me at (860) 285-5002.

Sincerely,

ABB PROSPECTS INC.
