Desc: Records pertaining to an accidental melting of a Cesium-137 source at an AuSteel steel mill in Lemont Township (unincorporated Cook & Will counties), Illinois (incident occurred in April 1994). We are specifically looking for information that would reveal that the former scrap metal yard was scanned for potential radioactive sources. This information will be utilized by the prospective purchaser of the steel mill, who is trying to confirm that no additional radioactive risks remain at the property (i.e., that the 1994 incident was properly addressed). Please contact me if the fee for this FOIA request will exceed \$25.00 to obtain authorization to proceed. Thank you.
