NOTE OF TELEPHONE CALL

BY: Bob O'Connell

SUBJECT: NMSS-2002-A-0002

On May 8, 2002, I received a voicemail message from the CI. He stated that he had located a copy of a letter he sent to ASME dated 8/26/99 regarding his findings, and would fax it to us. He stated that his findings would be in records for the 1<sup>st</sup> or 2d quarter of 1999. I contacted Frank Jacobs of the NRC inspection team at Holtec. Paul Narbut reportedly spoke with the CI by phone this morning and obtained information for followup.
