

December 4, 1987

Mr. Birger Andersen
Program Manager
Science Applications International Corporation
1710 Goodbridge Drive
McLean, Virginia 22102

Dear Mr. Andersen:

I am in receipt of three letters from Mr. Avi Bender of the Nuclear Regulatory Commission. Of the two dated December 2, 1987, one is a response to the October Monthly Progress Report on NRC Contract NRC-02-86-006; the second letter dated December 2, 1987, contains comments on the Configuration Management Plan dated September 30, 1987, same contract. The third letter, dated December 3, 1987, contains comments on the draft TLSS Operations Manual dated September 30, 1987. All of these letters request certain actions to be accomplished by SAIC.

Please provide the following information to the National Air and Space Museum at your earliest convenience:

* Expected date of completion of each of the actions requested in the three referenced letters.

* Expected date of completion of all obligations in connection with NRC Contract NRC-02-86-006.

* A response to my letters of July 21 and August 31, 1987, requesting a proposal from SAIC to perform certain work for the National Park Service, NASM, and the SI Office of Architectural History and Preservation.

Once again, your cooperation and attention to this matter would be very much appreciated.

E. T. Wooldridge
Assistant Director
Museum Operations
