The Honorable Lando W. Zeck, Jr.
Chairman
National Regulatory Commission
1717 H Street, N.W.
Washington, D. C. 20555

Dear Mr. Chairman:

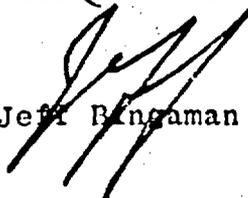

It is our understanding that the University of New Mexico has submitted an application in response to an RFP from the NRC for consideration as a Center for Nuclear Waste Regulatory Analyses. We would like to express our interest in this application.

The University of New Mexico can provide the scientific, the computational and experimental facilities and the administrative support required for such a Center. The proposal includes as well adjunct staff from New Mexico Institute of Mining & Technology; New Mexico State University and Technet, an electronic communications network that links federal laboratories, state universities and private industries along New Mexico's Rio Grande Research Corridor.

It would be very much appreciated if you would advise us of the determination made on this proposal.

Sincerely,

Pete V. Domenici
