Dear Mr. Carlyle:

Thank you for the telex reminder on September 21, 1987 regarding NRC comments on, "Proposed Report on In-Situ Research and Investigations in NEA Member Countries for Radioactive Waste Disposal." After reviewing the section on NRC activities, pages 46-47, I have no significant comments at this time. I have also reviewed the "Questionnaire on the Interaction Between Experimenters and Modelers." Since the NRC is not actively engaged in actual in-situ investigations, it will not be possible for the NRC to return any completed questionnaires.

I am looking forward to meeting with you at the upcoming ISAG meeting. If I can be of any further assistance please contact me.

Sincerely,

Mysore S. Nataraja, Section Leader
