Mr. Fred G. Haag
Nuclear Power Generation Planner
State of New York
Department of Public Service
Three Empire State Plaza
Albany, NY 12223

Dear Mr. Haag:

This is in response to your letter to Nancy Still dated May 19, 1987, requesting receipt of information from NRC in the high-level waste area.

Unfortunately, with our limited resources, we cannot routinely mail out hardcopies of every product in the HLW program to all organizations. However, NRC has an extensive mailing list system to assure that all interested parties are informed upon publication and issuance of significant documents, including comments on major DOE documents, documents released for public comment, such as technical positions and review plans, and formally published technical reports generated by NRC and its contractors. In addition, we maintain a telephone recording service for notification of upcoming meetings in the high-level waste program (1/800/368-5642, Ext. 79002) and send out a weekly meeting notice to numerous parties.

Your name is currently on our mailing list for notification of significant documents, and we have placed your name on our list to receive the weekly listing of upcoming meetings.

As you requested in your letter, enclosed is the April 1987 version of our High-Level Waste Products List. Please let me know if you would like to discuss this further.

Sincerely,

Original Signed by
MICHAEL J. BEIL

for Robert E. Browning, Director
Division of High-Level Waste Management
