AMERICAN SOCIETY FOR QUALITY CONTROL

ENERGY DIVISION

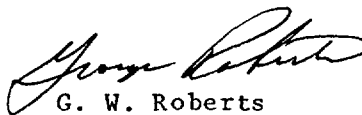

TO: DISTRIBUTION

SUBJECT: MEETING OF ENERGY DIVISION COMMITTEE FOR R&D

The next meeting of the R&D Committee is scheduled for April 7, 1988 at the Los Alamos National Laboratory. Ron Geoffrion will be our host and should be contacted in advance if you attend. Ron's phone number is (505) 667-0030.

The purpose of this meeting is to work on the Quality Assurance Guidelines document. The attached copy has been updated to reflect the committee's decisions and comments arrived at during its last meeting in Atlantic City on March 14, 1988. The committee worked through Page 12, so we will begin with Section XI, "Nonconformances" on Page 13. This remaining portion of the document is annotated with specific comments placed opposite the page and in most cases opposite the paragraph to which they apply.

As always, whether or not you can attend, your comments and suggestions are most welcome. We will schedule another meeting at the ASQC Annual Quality Congress in May, so please plan to attend that one as well.

G. W. Roberts
Chairman
