

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

89000893

OCT 16 1989

NOTE TO: Shirley Fortuna, Deputy Program Manager
Program Management, Policy Development
Analysis of Staff

FROM: P. M. Altomare, Program Element Manager, WSE&I

SUBJECT: REVIEW OF TED ROMINES PROPOSED PAPER "THE CONCEPT AND STRUCTURE OF
THE NRC PROGRAM ARCHITECTURE":

I have reviewed the subject paper scheduled to be given in April 1990 in Las Vegas and given comments directly to Ted Romine by phone. Two general comments provided were: the paper should be qualified as presenting development concepts that may change as experience is gained; and, due to the many references to NRC and subject matter developed by NRC within Joe Bunting's Branch, that Joe Bunting should be a co-author. Ted would be pleased to include Joe's name and will qualify the paper.
