Dear Mr. Whiting:

SUBJECT: IDENTIFICATION OF TECHNICAL CONTACTS

As noted in the Center for Nuclear Waste Regulatory Analyses (CNWRA) and the U.S. Nuclear Regulatory Commission (NRC) meeting of February 21, 1991, the Division of High-Level Waste Management is planning to develop the Compliance Determination Strategies for three regulatory requirement subject areas: Mining Regulations; Flooding; and Natural Resources. In order to coordinate ongoing NRC and CNWRA work, I would appreciate the Center providing a technical contact person for each of these areas.
