Re: NRC Letter, *MDNR Decommissioning Plan Acceptance Review Comments*, Dated August 8, 2003.

Dear Ms. Banovac:

Please find enclosed a CD-ROM containing electronic versions of the RESRAD input files as requested (Comment #8) in the NRC Letter, *MDNR Decommissioning Plan Acceptance Review Comments*, dated August 8, 2003. There are input files for each of the four scenarios evaluated to derive the subsurface soil DCGL presented in the MDNR's Site Decommissioning Plan, Revision 0, 1/31/2003.

As discussed in our recent conference call on November 6, 2003, MDNR is considering the derivation of a surface soil DCGL in response to NRC comment #5d of the referenced letter. If additional RESRAD dose assessments are used in support of the DCGL development, electronic versions of the RESRAD input files will be provided with the revised DP submittal.

If you have any questions or comments, please contact me at (970) 243-2861.

Sincerely,

A handwritten signature in black ink that reads "Jeffrey W. Lively".
