SUBJECT: REVIEW OF REPORT ON SITE SPECIFIC DOSE PARAMETERS: IM 5702-723-602

Dear Dr. Baca:

In a letter dated October 2, 1995, the Center for Nuclear Waste Regulatory Analyses (CNWRA) transmitted a report entitled "Initial Analysis of Selected Site-Specific Dose Assessment Parameters and Exposure Pathways Applicable to a Groundwater Release Scenario at Yucca Mountain." Based on our programmatic review, conducted by Robert B. Neel, it was determined that this deliverable was transmitted on time, and is adequate and consistent with the technical direction previously provided to the CNWRA. Therefore, the transmitted document acceptably meets the requirements of Intermediate Milestone 5702-723-602.

If you have any questions regarding this letter, please contact me at 301/415-6677.

Sincerely,
/s/
Michael P. Lee, Manager
Performance Assessment Program Element
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards
