RE: Lost Nuclecel static eliminator

To whom it may concern,

On October 28, 2003 I wrote informing you of a missing Nuclecel static eliminator manufactured by NRD, Inc., the missing unit was a Nuclecel Model P-2021-8101 In-line Ionizer. The Serial number was A2CG769.

On November 10, 2003 the missing unit was located in the plant by the Manufacturing Manager. This unit is being returned to Amstat Industries per our leasing agreement.

If you have any questions feel free to contact me at 269-323-1301 ext. 303.

Sincerely,  
Summit Polymers, Inc.  
Plant One
