MEMORANDUM FOR: Robert E. Browning, Director
Division of Waste Management

FROM: Hubert J. Miller, Chief
Repository Projects Branch, DWM

SUBJECT: FORMATION OF WMRP TASK FORCE AND PROJECT ASSIGNMENTS

Completing and documenting review of seven EA's simultaneously, and within the tight timeframes which has been established, will require an intensive project management effort by WMRP. We have been striving, through preparation of detailed review plans (e.g., EA review plan) to assure that the efforts of individual projects are well coordinated. To assure such coordination, and for efficiency, an internal WMRP team was established several months ago (see attached memo). It is clear now that the enormity of the job and number of separate EA's will require a strong task force effort under the direction of a single manager. I am assigning John Linehan as director of the WMRP task force which will be responsible for the activities outlined in the attached memo. This project management task force consists of WMRP section leaders, site project managers and selected WMRP staff. Ken Parr will continue to be the principal staff person assisting Linehan in this task force effort.

At the same time, I am appointing King Stablein as project manager of the NTS project, reflecting the fact the NTS section, as Salt and BWIP sections, has significant responsibilities beyond pure site project work.

Hubert J. Miller, Chief
Repository Projects Branch
Division of Waste Management
