ACCESS AUTHORIZATION

Dear Mr. Terry:

On January 7, 2003, the U.S. Nuclear Regulatory Commission (NRC or Commission) issued Orders to holders of licenses for operating nuclear power reactors, for the implementation of compensatory measures (CMs) related to access authorization. On January 27, 2003, TXU Generating Company LP, licensee for the Comanche Peak Steam Electric Station, submitted its written response to the Order.

The NRC staff has completed its review of your response. Based on that review, the NRC staff finds that your response to the January 7, 2003, Order is acceptable and responsive to the Order.

Please remember, pursuant to Section III.C.2 of the Order, you are to report to the Commission, in accordance with Title 10 of the *Code of Federal Regulations*, Section 50.4, when you have achieved full compliance with the requirements described in Attachment 2 to the Order. The NRC will determine the effectiveness of your implementation of the CMs through onsite inspections.
