SUBJECT: COMMENTS ON PROGRAM ARCHITECTURE DEVELOPMENT MILESTONES D5 AND A1

Dear Mr. Whiting:

We have received the subject document transmitted by your letter of August 12, 1988. As stated, this deliverable corresponds to two Center intermediate milestones: D5 -- "Define the new data fields and field inter-relationships" and A1 -- "Finalize PASS organizational structure, field definitions, and report generation for MS 12 data."

Based on our review of this document and its predecessor (dated July 26, 1988), we have no additional comments to add aside from those discussed earlier (August 4th and 5th) between yourself, Joe Bunting, and Mike Lee. Finally, we accept your example of a regulatory requirement to confirm the report generating capability of the system.

Sincerely,
