PHIL/9/7/CNWRA INTERFACE COMM.

- 1 -

MEMORANDUM FOR: Those on Attached Distribution List

FROM: Philip M. Altomare, Section Leader
Systems Engineering and CNWRA
Management Section
Engineering and CNWRA Branch

SUBJECT: NRC/CNWRA ADP INTERFACE COMMITTEE

At the first meeting of the NRC/CNWRA ADP Interface Committee, it was requested that the interface requirements be identified by the participants. Rawley Johnson of the Center for Nuclear Waste Regulatory Analyses (CNWRA) has provided a form (enclosed) for this purpose. You are requested to provide the required information (or additional information that you consider important) in as much detail as possible to describe the interface needs.

Please send the completed forms and/or supplements to me at Mail Stop 4-H-3, by September 20. I will, with volunteer help, collate your inputs in time for the next Committee meeting, scheduled for Monday, September 26, at 2:00 p.m., Room 4-B-11.

151

Philip M. Altomare, Section Leader
Systems Engineering and CNWRA
Management Section
Engineering and CNWRA Branch

NMSS/CNWRA SYSTEM INTERFACE FORM

Type of System

Please circle the type of application in the following list that best describes the system you desire to interface. (Modeling, Text Management, Database Management, Project Management) If other, please list here.

(_____)
(Use additional forms as required.)

Interface Requirements

Please describe your system and interface requirements in the following categories. List existing items/capabilities/functions, plus planned systems. Please be as specific as possible.

Hardware -

Software -

Network -

Data Administration -

Procedures/Training -

Security -

Other -

Major schedule items in planning for Implementation of the Interface

Phase I (1988)

Phase II (1989)

Phase III (1990)

Responsible Group (NMSS, CNWRA, IRM, Contractor, Subcontractor)

Projected Budget for Interface
