OCT 26 1988

Dear Mr. Latz:

The next date for a submittal to NRC related to the CNWRA QA Manual is October 28, 1988. This submittal was to contain revisions to the Interim CNWRA QA Manual to include Decision Support System requirements for each chapter. Because priorities within NRC made it impossible for us to provide you with comments as quickly as I would have liked, you will not have the full amount of time which we mutually agreed would be necessary for this process. Therefore, I would like to suggest that you postpone submittal of this draft until after Mr. Mark Delligatti of my staff visits you during the week of November 7, 1988. This will allow Mr. Delligatti to be present while your staff is working on the revisions. You could then submit the QA Manual to us for review and approval on November 18, 1988.

If this approach is not acceptable to you, please contact me as soon as possible.

Sincerely,

Original Signed By
