Ray, attachment E was not part of the Calculation, but part of the letter you referenced. Attached please find Attachment E.

Subject: Request for info

Dan:

I am trying to put together the information on the manual action issue. One of the letters that was provided to us was a December 22, 1994 letter from APSC to the NRC. The subject of the letter was "Response to the Follow-up to the request for Additional Information regarding Generic Letter 92-08, Issued Pursuant to 10 CFR 50.54(f) on December 21, 1993."

On Page 9 of 15 regarding the APS response to Item III.B.2 it states that the 10 CFR 50, Appendix R III.G/III.L Compliance Assessment Calculation has nbeen revised to credit operator actions. It also says that Attachment E delineates those configurations which have been eliminated due to engineering analysis and manual actions.

The copy of Calculation 13-MC-FP-318, "III.G/III.L Compliance Assessment " that I have is Revision 8, dated June 1, 2001, and it does not have An Attachment E.

Can you provide me the revision that was current when the December 22, 1994, letter was written.

Thanks,

Ray Mullikin
