Birmingham, AL 35203

IN RESPONSE REFER  
TO FOIA-81-273

Dear Mr. Horne:

This is in further response to your letter dated July 6, 1981, in which you requested, pursuant to the Freedom of Information Act, copies of documents pertaining to the establishment or future establishment of a nuclear waste storage or disposal facility in the state of Alabama and the names of all such facilities in the U.S. now under development or consideration, as well as the names and addresses of companies or corporations involved.

By letter dated August 3, 1981, we responded to your request for information concerning the establishment or future establishment of a nuclear waste storage or disposal facility in the state of Alabama, and provided you with a list of those utilities having plans for increasing waste storage.

A further search of our files resulted in the location of documents concerning a proposed low-level waste retrievable facility in Lyons, Kansas. If you should want information on that facility, we are providing you with a computer printout listing the documents available. These documents can be located under Docket Number WM-11 in the NRC Public Document Room (PDR). We are also enclosing an Appendix listing other additional documents which were found to be subject to your request.

Copies of these documents can be purchased by writing directly to the NRC Public Document Room, 1717 H Street, N.W., Washington, DC 20555. Upon your agreement to pay the reproduction charges, the PDR will arrange for the records to be reproduced by Literature Research Company, a private reproduction contractor servicing the PDR. You will be billed by Literature Research Company for the reproduction charges, plus tax and postage. The charge for reproducing records located in the PDR is five cents (\$0.05) per page, as specified in 10 CFR 9.14(a).

This completes NRC's action on your request.

Sincerely,

  
J. M. Felton, Director  
Division of Rules and Records  
Office of Administration
