Mr. Jeffrey S. Forbes
Site Vice President
Arkansas Nuclear One
Entergy Operations, Inc.
1448 S. R. 333
Russellville, AR 72801

SUBJECT: CORRECTION OF LICENSE AND TECHNICAL SPECIFICATIONS FOR
ARKANSAS NUCLEAR ONE, UNIT 2 (ANO-2) (TAC NO. MC1026)

Dear Mr. Anderson:

The purpose of this memorandum is to provide you with the results of the U.S. Nuclear Regulatory Commission (NRC) staff review of the license and technical specifications for the subject plant. The NRC is conducting a comparison of its license authority files to licensees' records to ensure errors in licenses and technical specifications are identified and corrected for all units. I have completed the comparison of the NRC's license authority file and your records to determine whether corrections were necessary. The enclosures provide the information necessary to update your records for ANO-2 so that the license and technical specifications accurately capture the NRC-approved amendments or corrections to these documents. I have discussed the corrections that are necessary with Dave Bice of your staff.

Enclosure 1 contains the insert/remove instruction pages for the associated amendments and correction letters, and the correct license and technical specification pages, and Enclosure 2 contains the cover pages of the letters transmitting the license amendments and correction letters. Please follow the instructions of the insert/remove pages when incorporating these corrections. Please have a member of your staff inform me when the corrections have been incorporated into your records or if there are questions or comments on the requested action.

Sincerely,

/RA/

Thomas W. Alexion, Project Manager, Section 1
Project Directorate IV
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Docket No. 50-368

Enclosures: As stated
