MEMORANDUM TO: Gilbert C. Millman, PMPDAS, RES  
THROUGH: Farouk Eltawila, Director, DSARE, RES */RA/* by Farouk Eltawila  
FROM: Ronald C. Emrit, REAHFB, DSARE, RES  
SUBJECT: PUBLICATION OF NUREG-0933, SUPPLEMENT 27, AND POSTING  
ON THE NRC PUBLIC WEB SITE

REAHFB has completed a review of NUREG-0933, Supplement 27, against the criteria in COMSECY-02-0015, approved by the Commission in a Staff Requirements Memorandum issued on May 28, 2002, and has concluded that it contains no information that meets the criteria for withholding sensitive homeland security information from the public. The supplement contains the following new generic safety issue (GSI) that was not previously approved for publication:

192 Secondary Containment Drawdown Time (ML021840788)

The screening analysis of GSI-192 was made available to the public and an ADAMS Accession Number was assigned for retrieval as shown above. Therefore, DSARE requests that Supplement 27 to NUREG-0933 be published and installed on the NRC public web site by the Office of Chief Information Officer. For information on the electronic data to be installed, please contact Ronald C. Emrit (301) 415-6447.
