December 5, 2003

Nuclear Regulatory Commission
ATTN: David A. Ayres, Chief
Fuel Facilities Branch
Division of Nuclear Materials Safety

Dear Mr. Ayres,

Thank you for informing me that the meeting originally scheduled for December 4, 2003 between the Nuclear Regulatory Commission and Nuclear Fuel Services, Inc (NFS, Inc) to "afford NFS, Inc the opportunity to discuss its perspectives on the applicability of license conditions S-11 and S-46 under certain circumstances" has been postponed.

I appreciate that you have agreed to notify me when a new date for this meeting is decided upon. I would also appreciate a adequate notice, preferably of at least two weeks.

Sincerely,

A handwritten signature in cursive script, appearing to read "Annie Makhijani", is written over a faint, larger version of the same signature.

Annie Makhijani
Project Scientist
