12.3.03

The purpose of my letter is concern
about production of radioactive waste being
produced at Duckles Canyon Power Plant in San
Luis Obispo, California.

Full hearing must be held before
production, storage and waste be allowed to
exist in this area. San Luis Obispo is not
quake-prone coastal zone has no safe site
and there is no method of transportation that
is not vulnerable to accident, terrorism
or sabotage. Radioactive waste is deadly
for thousands of years.

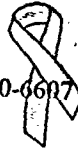

Please fulfill your responsibilities
as nuclear regulatory commission and
see that your hearings be held
before opened storage of high-level
radioactive waste be allowed in our
county.

Thank you.
