

MAY 12 1988

MEMORANDUM FOR: Shirley Fortuna
Systems Engineering and Evaluation Branch
FROM: Jerome R. Pearring
Technical Review Branch
SUBJECT: RESUMES FOR POTENTIAL CANDIDATES FOR CNWRA EMPLOYMENT

Dr. Kien Chang, John Buckley and I are unaware of any information that would substantiate an objection to the Centers plans for adding Mr. Dearing, Dr. Dahle, Mr. Meyers or Mr. Yau to their Technology Department staff. It is important to note that the RDCO Program Element technical tasks will not require the full time efforts of a Mechanical Engineer or a Nuclear Engineer for some time to come. However, since other program elements will require some technical support in these technical disciplines, funding can be adjusted as required between PE's to support the hire. Subject resumes are being returned under separate cover.
