Subject: Request for Proposed Rule for 10CFR35

DOCKETED
USNRC

December 22, 2003 (8:04AM)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Request for Proposed Rule for 10CFR35 , FR vol 68 no 236 pg 68549 - 68562:

Could direct me to a list of how the changes in training and experience relate to all the certifications of interest. It would be quite useful for me to see some sort of table that describes current requirements for complete certification with a column demonstrating the proposed changes. Its hard to draw any conclusions without seeing what the boards are lacking in requirements.

If there is no such table, I am requesting one.

Also then would need to extend the due date for comments in order to evaluate the table by myself and other regulators.
