JUL 0 8 1992

MEMORANDUM FOR: Raymond F. Fraley, Executive Director

Advisory Committee on Nuclear Waste

THRU: Abraham L. Eiss, ACNW Liaison

Special Issues Group

Office of Nuclear Material Safety

and Safeguards

FROM: B.J. Youngblood, Director

Division of High-Level Waste Management

Office of Nuclear Material Safety

and Safeguards

SUBJECT: TRANSMITTAL OF DRAFT OF FINAL STAFF TECHNICAL POSITION

(STP) ON "GEOLOGIC REPOSITORY OPERATIONS AREA UNDERGROUND

FACILITY DESIGN -- THERMAL LOADS" TO THE ADVISORY

COMMITTEE ON NUCLEAR WASTE (ACNW)

The purpose of this memorandum is to provide the ACNW with a copy of the subject STP for its review and comment in anticipation of a forthcoming ACNW briefing. This briefing is currently scheduled for July 1992. To facilitate the Committee's review, the staff has submitted a line-in/line-out copy of the revised STP. This revision responds to the public comments received on an earlier draft of the STP, noticed in the Federal Register on July 22, 1991, and to the additional comments received during an April 1992 technical exchange with the U.S. Department of Energy. Also included is the attendant comment response package which formally documents the staff's disposition of each of the public comments received. Pending a favorable response from the ACNW following the briefing, the staff will issue the STP in final form.

If you have any questions or desire additional information about this STP, please contact the Project Manager for this STP, Michael P. Lee, at 504-2421.

B.J. Youngblood, Director
Division of High-Level Waste Management
Office of Nuclear Material Safety
and Safeguards

Enclosure: As stated

. 11

DISTRIBUTION AND CONCURRENCE: See next page.
