Subject: Haven't found more

Here's the Card memo, and the 2d memo mentioned in the Times article. I found them at the Web site of the Federation of American Scientists! It appears that the memos have not yet arrived at the NRC.

The memos appear to make no exception for independent regulatory agencies. Everyone has to report to OHS in 90 days on what they're doing.

The White House action is now being widely reported. I've given you links to AP and Reuters' articles too, if only because they quote Fleischer.

Card memo and attached 2d memo:
