Subject: Request for Extension – 2003 Annual Report for Church Rock

40-8907

Dear Mark:

On behalf of UNC, we respectfully request an extension of the submittal date for the Annual Review Report 2003 for UNC's Church Rock Site, Gallup, New Mexico. USFilter (consultant preparing the report on behalf of UNC) has had continuing problems with receiving complete and accurate laboratory analytical data for the groundwater samples obtained as part of the performance monitoring program.

Therefore, we request a two-week extension for submittal of this report from December 31, 2003, to January 16, 2004. During this time we will correct the data deliverable issues with the lab so that the Annual Report will be accurate and complete, and of the high quality that we insist upon.

Thank you for your consideration, and please feel free to call me if you have any questions.

Sincerely,

Roy S. Blickwedel, P.G.
Remedial Project Manager
