Dear Commissioners and Staff:

By Pacific Gas and Electric Company (PG&E) Letter HIL-03-001, dated December 15, 2003, PG&E submitted an application to the Nuclear Regulatory Commission (NRC) requesting a site-specific license for an Independent Spent Fuel Storage Installation at the Humboldt Bay Power Plant. The application included a Safety Analysis Report, Environmental Report, and other required documents in accordance with 10 CFR 72.

To support NRC review of the geologic characteristics of the ISFSI site, enclosed is a series of five data reports (A through E) prepared for PG&E by Geomatrix Consultants, Inc.

If you have any questions regarding these reports, please contact Mr. Terence Grebel at (805) 545-4160.
