Subject: Fw: PR-8 Excursion

John:

As required in our license, this e-mail is notification that we have had an excursion in a monitor well that is reportable to the NDEQ. PR-8, which is a Mine Unit 1 perimeter monitor well, went on excursion today. Both the initial and confirming samples exceeded the criteria for an excursion. The following message was sent to Dave Miesbach at NDEQ. A written report will follow.

Michael Griffin
Manager of Health, Safety, and Environmental Affairs
Crow Butte Resources, Inc.

Dave:

I left you a voice mail, but wanted to confirm by e-mail that PR-8 went on excursion today. The first sample exceeded the UCL for three parameters. The confirming sample has exceeded the UCLs for four parameters. I will be preparing an initial report tomorrow and will e-mail you an unofficial copy.

Mike
