Re: PROPOSED APPENDIX 7 VISIT TO NNWSI - WMFO, LAS VEGAS,
NEVADA ON SEPTEMBER 23, 24, AND 25, 1987

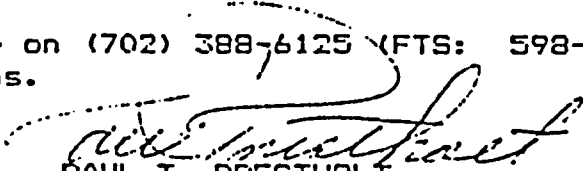

Dear Mr. Gertz:

The NRC Division of High-Level Waste Management proposes an Appendix 7 visit to the NNWSI - WMFO, Las Vegas, Nevada, on September 23-25, 1987. The subjects for discussion will be 11 Fenix & Scisson studies for the Exploratory Shaft; 6 Holmes & Narver studies for the Exploratory Shaft; the Draft Performance Assessment Report, Sandia National Laboratory; and the Draft Subsystem Design Requirements Report. We request that these documents be made available for review in my office on September 23, 24, and 25 (a.m.), and discussions are scheduled for the afternoon of the 25th with DOE representatives, i.e., Larry Skousen and staff, preferably in my office.

This visit will be conducted under Appendix 7 rules and understanding. No advance preparation by NNWSI personnel is expected.

Arrangements for obtaining the necessary documents will be made by Larry Skousen and myself.

Please contact me on (702) 388-6125 (FTS: 598-6125) if there are any questions.

PAUL T. PRESTHOLT

Sr. On-Site Licensing Representative
