*Ex. 5 & outside scope*

2. Rulemaking Website: Access to public comment - Website open; issued closed.

ADM took advantage of questions that came up through the e-government initiative to discuss reopening the public libraries with OEDO. I explained the results of the NMMS comment library review, noted that NRR was conducting a similar review, and discussed agency-wide comment processing procedures. Mindy agreed that the comment libraries should be reopened and confirmed this decision with Mrs. Norry. The comment libraries have been reopened for all portions of the RuleForum website.

ADM asked NRR to return Carol Gallagher's files to her.
