

January 6, 2003

Mr. Aubrey Godwin, Director
Arizona Radiation Regulatory Agency
4814 South 40th Street
Phoenix, AZ 85040

Dear Mr. Godwin:

As requested, we have reviewed the proposed amendments to the Arizona regulations contained in the rule package sent to this office on November 18, 2003, and also the online Arizona rules located at http://www.sosaz.com/public_services/Title_12/12-01.htm. In addition, we reviewed your responses to our November 3, 2003 letter, which contained our comments on the proposed regulations. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) regulations in 10 CFR Parts 20, 34 and 70 and the requirements of the four amendments identified in the enclosed States Regulation Status Data Sheet (SRS). We discussed our review of the regulations with Daniel Kuhl on January 5, 2004.

As a result of our review, we have 9 comments. Most of these comments are repeated from previous NRC review letters. In order to close these items, if the changes have already been made, the State needs to identify the changes in their rules and submit them for review. Under our current procedure, a finding that a State regulation meets the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final State regulation. Please provide a final amended version of your rules showing the location of any changes made in response to our comments in this letter. If there are any comments which the State believes are in error, the State should identify the section of their regulations that meet the designated compatibility category. Please note that we have limited our review to regulations required for compatibility and/or health and safety, but have determined that if these regulations are adopted, incorporating our comments and without significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of the status of other Arizona regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or John Zabko of my staff at (301)415-2308 or JGZ@NRC.GOV.

Sincerely,

IRA By P.Lohaus For

Josephine M. Piccone, Deputy Director
Office of State and Tribal Programs

Enclosures: As stated
