NUMBER OF PAGES 4 AND COVER SHEET

FROM JAMES FIRTH PHONE EXT. (301) 504-2410

OFFICE 5-6-16 MAIL STOP # 4-H-3

December 9, 1993

NOTE TO: Dr. Detlof von Winterfeldt,
Professor of Systems Management and
Consultant to the TYMS Committee

FROM: James R. Firth, U.S. Nuclear Regulatory Commission

SUBJECT: STUDIES ON HUMAN INTRUSION AND COUNTERMEASURES

Although your deadline of November 1, has passed, I thought that I would provide some additional information which may be of value to your literature survey. I have enclosed a copy of an abstract and reference list of a recent publication of the title: *Communicating with the Future: Implications for Nuclear Waste Disposal*. Also, there is a paper that has been drafted for the Commission that is expected to become publicly available on December 10. This paper will be provided to the NAS Committee. If you would like a copy sent to you directly, please let me know.

Sincerely,

James R. Firth
Systems Performance Analyst
