Subject: Compliance with Compensatory Measures Related to Access Authorization

- References:**
- 1) U.S. Nuclear Regulatory Commission Letter dated January 7, 2003, to Holders of Licenses for Operating Power Reactors, "Issuance of Order for Compensatory Measures Related to Access Authorization."
 - 2) Nebraska Public Power District Letter dated January 27, 2003, from Clay C. Warren to U.S. Nuclear Regulatory Commission, "Response to Order for Compensatory Measures Related to Access Authorization."

The purpose of this letter is to transmit Nebraska Public Power District's (NPPD) response pursuant to Condition III.C.2 of the Nuclear Regulatory Commission's (NRC) Order dated January 7, 2003.

In response to the events of September 11, 2001, NPPD on its own and in response to NRC Advisories, Orders and industry initiatives, promptly initiated and has maintained heightened security measures at Cooper Nuclear Station to continue to provide high assurance that activities involving special nuclear material are not inimical to the common defense and security and do not constitute an unreasonable risk to the public health and safety in the current threat environment.

On January 7, 2003, the NRC issued an Order requiring additional compensatory measures to improve access authorization and control at operating power reactors. Pursuant to the requirements of 10CFR50.4, Attachment 1 to NPPD's letter (Reference 2) contained responses to Section III.B.1 and III.C.1 of the above referenced Order (Reference 2). Pursuant to Condition III.C.2 of the Order and the requirements of 10CFR50.4, this letter contains NPPD's response to Condition III.C.2 which is required no later than January 7, 2004.

As required by Condition III.C.2 of the Order, NPPD hereby notifies the Commission that full compliance with the requirements described in Attachment 2 of the Order has been achieved as of the date of this letter.

If you have any questions or require additional information, please contact Mr. Paul Fleming at 402-825-2774.

Sincerely,

Randall K. Edgington
Vice President-Nuclear and
Chief Nuclear Officer
