**Subject:** Fwd: Reminder: The monthly FP conference call with the regions is tomorrow, March 5th

I'd like to include on the agenda the following:

1) What is our expected level of participation/observation in the NFPA 805 tabletop exercises. We have been approached by NEI to participate in the Farley tabletop in April. We are not looking to lead this effort but want to stay involved in what happens in FP at the plants in our region.

2) Where do we stand on the NRC's program for manual actions?

I'll try to participate, but if not Charlie will be on the line. Thanks.
