

From the desk of Don Metzler

DATE: 11/30/92
TO: John Surmeier
FROM: D. Metzler
SUBJECT: UMTRA Groundwater Paper

Thanks for showing interest in the paper that I presented the day after the NRC/DOE management meeting. The paper was presented at the 14th Annual DOE Conference for Low Level Radioactive Waste in Phoenix, Arizona.

Most of the paper's text was taken from the UMTRA Groundwater Management Plan (5-92) that I and others from the TAC developed last spring.

I met an NRC manager that knows you, his name is William Lahs.

See you and others at the Falls City scoping.
