Re: License No. 42-27593-01 (revised amendment request)

Dear Mr. Whitten

I wish to request an amendment to our Radioactive Materials License. Longview Inspection is in the process of acquiring GFS/NDE, NRC License Number 34-14071-02.

The office is located at 1710 Greengarden Road, in Erie, Pennsylvania. I expect the transition to take 30 to 45 days.

I am requesting this site to be added to license condition 11A. and 11B. of the Longview Inspection NRC license. After reviewing the GFS/NDE license condition 10, the only device that is currently on the GFS/NDE license that is not identified on the Longview Inspection license is the Tech/Ops 655 device. I am requesting this device be added to Longview's license. This site will continue to operate as a use and storage site.

The GFS/NDE RSO, Mr. Al Magno will send a letter to Region I and copy to your office, requesting to terminate their license.

If you should have any questions concerning this request, please call me at 281 / 842-3350.

Best Regards,

A handwritten signature in black ink, appearing to read "Lloyd A. Gray".

Lloyd A. Gray, Director
Radiation Safety & Environmental Compliance
