MEMORANDUM FOR: Those on Attached List

FROM: Philip M. Altomare
Program Element Manager
Waste Systems Engineering and Integration

SUBJECT: REVIEW AND COMMENT ON PROGRAM ARCHITECTURE MILESTONES A5,
A6, AND R7

As stated by the Center's cover letter, this deliverable corresponds to one major and two intermediate milestones in the accelerated development of the Program Architecture. The enclosed report completely fulfills the requirements of element/subelement milestones A6 (short title: Finalize PASS documentation) and R7 (short title: Proof-of-system report), and partially fulfills the requirements of A5 (short title: PASS organizational structure).

Much of the information enclosed in the report was seen previously by selected members of NRC's CNWRA Program Management staff during their meeting of December 1, 1988, in San Antonio, to witness the milestone R7 proof-of-system demonstration. Although these three milestones are not pacing items for the Center in their efforts to develop the Program Architecture (PA) and Program Architecture Support System (PASS), they would benefit from any technical comments we may have so as promote continued and effective development the PA and PASS. Accordingly, it is requested that you review and comment on this report and provide any comments you have to Mike Lee (4A18, x20421) by c.o.b. Friday, December 23, 1988. If more time is needed, please contact me at x23400. Thank you.
