

DOCKET NUMBER
PROPOSED RULE **35**
(68FR 68549)

DOCKETED
USNRC

6

From: STEVEN MARSH <marsh.84@osu.edu>
To: <SECY@nrc.gov>
Date: Mon, Jan 12, 2004 11:48 AM
Subject: RIN 3150-AH19

January 12, 2004 (2:38PM)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Dear NRC:

Please find enclosed my comments with respect to RIN 3150-AH19 due February 23, 2004;

1. I believe that the proposed revisions to requirements for T&E will provide a solid foundation/reasonable assurance that RSOs, AMPs, ANP, and AU will have adequate training in radiation safety as long as they have passed one of the other certification boards i.e; ABMP, ABR, SNM, & CHP.

2. I think the agreement states should conform with this proposed rule by October 24, 2005.

3. I am in agreement with the ACMUI and do believe that the word "attestation" be used with preceptor statements.

Thank you & Respectively,

Steven
