APPLICANT: Dominion Nuclear North Anna, LLC

FACILITY: North Anna Early Site Permit

SUBJECT: SUMMARY OF PUBLIC SCOPING MEETING TO SUPPORT REVIEW OF THE
NORTH ANNA EARLY SITE PERMIT APPLICATION

An environmental scoping meeting was conducted to support the review of the North Anna early site permit application submitted by Dominion Nuclear North Anna, LLC (Dominion). The public meeting was conducted in the evening on Monday, December 8, 2003, at the Louisa Middle School, in Mineral, Virginia. Approximately 110 people attended the meeting, including the U.S. Nuclear Regulatory Commission (NRC) environmental review team, members of the public and the media, representatives from public interest groups, the industry, and Dominion, and State and local government officials. A total of 27 individuals provided comments. Comments were in support of, and opposition to, the early site permit. Additional topics discussed included emergency preparedness, spent fuel storage, public health associated with nuclear power, and concerns regarding the NRC's early permit process itself. Enclosure 1 contains the official corrected transcript for the meeting. Enclosure 2 is a copy of the overhead slides used in the NRC's presentation.

One particular issue that was raised during the meeting was the timing of the opportunity for individuals to petition to intervene in the hearing associated with the NRC staff's review of this application. Mr. Robert Weisman of the Office of the General Counsel responded to this concern in a letter dated December 12, 2003 (Accession No. ML033580505) to the individuals who raised this concern.
