Dear Mr. Bergeron:

In reference to the work plan that you submitted for development of guidance for verification of ground-water data collected at the Uranium Mill Tailings Remedial Action (UMTRA) Title I project sites (Task 3, FIN L1375-2), I am pleased to transmit, at your request, copies of selected parts of the Remedial Action Plans for the Grand Junction; Falls City; Rifle; and Gunnison UMTRA projects. The enclosed material includes ground-water data and other relevant information that can be used, along with information from other sources, to identify the types/categories of ground-water data requiring verification and quality control at UMTRA project sites.

I hope that the enclosed material satisfies your needs, and that you will proceed to undertake this assignment without delay. Please call me at (301) 504-2528 if you have any questions, or if you need additional information.

Sincerely,
