The attachment to this memorandum is the most up to date listing of tentative and planned DOE/NRC meetings. It is being provided for your information and use.

As you will note, the restrictions on scheduling the meetings that had been put on hold until after the SCP Chapter 8 meeting had been scheduled have now been lifted. To aid us in coordinating our activities in rescheduling these meetings and scheduling any new meetings that may be suggested for the immediate future, I request that the following steps be taken:

1. For any new meetings that are proposed, the individuals at the project offices who are technically cognizant of the topic of the meeting should check with the cognizant OGR branch chief to confirm that the subject and timing of the proposed meeting does not conflict with other actions that OGR may be planning to conduct on that topic. The project office technical individual and the OGR branch chief should also check the meeting with their respective licensing staffs.
2. After a proposed meeting has been cleared per step one, or if the meeting is already included in the attached list, the project offices (or OGR branch for generic meetings) should work directly with their contacts at the NRC to identify proposed dates and locations for the meetings. For site specific meetings, the individuals at the project offices who are technically cognizant of the topic of the meeting should coordinate with the chief of the cognizant OGR branch to ensure that the date and place of the meeting do not create a conflict.
3. After the meeting date and place have been agreed to, either the lead licensing staff member of the project office, or the

| | <u>TOPIC</u> | <u>DATE</u> | <u>STATUS OF DATES</u> |
|-----|--|----------------|------------------------|
| 1. | SCP Chapter 8 | October 29 | Firm |
| 2. | BWIP Hydrology Workshop | Oct/Nov | Tentative |
| 3. | SRP Structural Data Review | November 19-21 | Firm |
| 4. | CY 1986 Meeting Planning | November | Tentative |
| 5. | SCP Issue Resolution Strategy, Issues & Data Needs (DOE to propose agenda and date.) | mid November | Tentative |
| 6. | BWIP Geology Workshop | Nov/Dec | Tentative |
| 7. | BWIP Repository Design Workshop | Nov/Dec | Tentative |
| 8. | Seismo-Tectonics (Need for TUFF specific meeting will be considered.) | December 3-4 | Firm |
| 9. | BWIP ES Design | December 3-4 | Firm |
| 10. | Generic QA Meeting | December 4-5 | Firm |
| 11. | SRP Repository Design | Dec/Jan | Tentative |
| 12. | SRP In Situ Testing | Dec/Jan | Tentative |
| 13. | Tuff Performance Assessment | January | Tentative |
| 14. | SRP Surface Based Tests | January | Tentative |
| 15. | SRP ES Design | January | Tentative |
| 16. | BWIP Geochemistry Workshop | TBD | Tentative |
| 17. | BWIP Waste Package | TBD | Tentative |
| 18. | SRP Waste Package | TBD | Tentative |
| 19. | BWIP Meteorology Monitoring Workshop (NRC questions the need for a site specific meeting, DOE will | TBD | Tentative |

cognizant OGR branch chief should inform me so that I can keep the attached list up to date.

4. The project offices are also requested to ensure that a package summarizing the points to to be discussed with the NRC in any site specific meeting is provided to OGR before proceeding with the meeting, as requested in W. J. Purcell's memorandum to the project managers on August 30, 1985.

Thank you for your assistance in trying to make the steps above work. If you have any questions or comments on these steps, I can be reached on FTS 252-5625.
