MJB HJM  
(Return to WM, 623-SS)

ORIGINAL NOT REC'D

DOE has developed an issue paper (attachment) on the subject of allocating performance goals to the repository subsystems and components. The paper presents the DOE responses to the six questions that we would like to discuss with the NRC on April 17, 1985.

DOE needs to resolve these issues in order to expedite the development of site characterization plans. If you have any questions about the position paper or the meeting agenda, please call me at FTS 252-1238.
