 Roger Gale, RW-40
 Robert Bauer, RW-10

Arrangements have been made for a meeting with delegates from the Federal Republic of Germany on September 30, 1985. We will brief the delegates on the standards and technical criteria that we have in the United States for the disposal of high-level radioactive waste in geologic repositories. The meeting will begin at 9:00 a.m. in room 4E-081 of the Forrestal Building.

We plan to provide a briefing for the delegates on the Nuclear Waste Policy Act, the EPA Standard, the NRC Rule, and the DOE Siting Guidelines. Your attendance at this meeting is suggested. Please contact me or Carl Newton of my staff if any questions arise about this meeting.
